ABOUT ME:

I was born in Reading, Berkshire in The United Kingdom in 2000. I moved to South Africa in 2006. I was introduced to cycling by my dad and I took part in various MTB events. I took part in my first road race in 2015 and realised my passion for the sport. I have had successful results in my u17 years and have achieved equally good results in the last one and a half years as an u19 road cyclist for the HI-Q Cycling Team. I have had many highlights in my junior years, but racing in Belgium in 2017 was certainly a great learning experience. I was very fortunate to spend 2 months racing in Belgium, Holland and participating in the Junior Tour Of Ireland 2018. Our Team finished 3rd Overall and also secured the Overall Yellow Jersey in a successful Junior Tour of Ireland. I hope to continue my learning experience in a team in Europe as a first year u23 in 2019.
