ABOUT ME:

I am a junior cyclist with a passion for Road. My interest in cycling began with mountain biking, as I am fortunate enough to live close to a reserve. Living close to the reserve has allowed me to do a number of hours a week on my mountain bike. However, after a year of cycling I found my preference in road racing.

Coming from a rowing background, I was able to quickly adapt to the demands of cycling. I am currently at school, with two years ahead of me before completion. I live with my parents and my older brother.

I am a strong believer in chasing your dreams; if you put your mind to it, nothing is impossible. I also believe that it is important to love and enjoy what you do. I am looking forward to an exciting 2018.
